The Latest British Indorsement. The Latest Hritish Indorsement. In the contest between Mr. Harrison and Mr. Herrison that this country should wish success. For the question at issue is broadly speaking, a question of free trade against protection. If Mr. Cleveland should be received the United States cariff will be medified very materially in the direction of free trade, a result which cannot of course fail to be beneficial to the trade of other countries, and especially of cannot of consecutive, and especially of our own. President Cleveland in accept-ing his homoaction by his own party ha-abstained, from motives of prudence from repeating his sentiments on the subject of the rarife. But should he be re-elected there can be no doubt that he will find orie can be no doubt that he will find neams to give effect to them -Loudon.

men who are opposed to the Cleveland free trade policy, but still vote the Democratic ticket because they rely upon the Republican Senate to stand between the people and the disaster sure to follow the insuguration of the Cleveland-Carlise-Mills programme. Such men are playing with That President Cleveland represents a policy calculated to prove "beneficial to verse comment. the trade of other countries and especially" to England cannot be successfully questioned in view of the cordial indorse ment given his Administration in the British press; that his re-election would have a lendency to strengthen a policy fraught with so much danger to this country is equally true. These are facts that will confront every voter when he goes to the polls this fall. In this State the man who yotes for William L. Patnam will inderse the Democratic proposition to put lumber, wool, lime, vegetables, etc., a the free list, to reduce the daty on starch, the Democratic refusal to afford rotestion to the box shock intester and the abject surrender of the Call stey voter in this State afford to in-

cles would cost votes in the South? What justice is there in a bill that subjects Maine lumbermen to Canadan competition, but protects the wood screw industry of Connecticut because to put that product on the free list as originally intended would cost a Democratic Congressman his election? It ever the people of Maine had occasion to repudiate Democracy it is this year. Let them read the extract from valued services in behalf of his party have the London paper quoted above and then decide whether they can afford to strengthon the purpose of Grover Cleveland to benefit England at the expense of American

They were Misrepresented. The idea that all the wool growers are opposed to the placing of wool on the free list is a decidedly mistaken one.; As we stated the other day Texas, the second wool growing State in the Union, votes solidly through its Representatives in the House for free wool.—(\*\*\*Commercial\*\*\*) Here is where our contemporary makes

a mistake. The Texas Representatives fid vote for free wool, but they did so in obedience to the mandate of the Democratic aucus and in spite of the protest of the wood growers. Mr. Lanham, of Texas, who represents a large wool growing district, referring to an amendment to restore wool to the dutlable list, which he had been requested to propose by "a representative convention authorized to speak" for the troof groteers of Texas, said that the amendment and request of the woot growers had been received by him prior to the action of the Democratic caucus. He had presented and advocated the amendment, but the great body of his party had deemed it "inexpedient to disturb" the wool schedule as proposed by the majority of Ways and Means. The bill having received the formal approval of the Democratic party he did not feel at liberty "to break the ranks" by offering an amendment which had been rejected in the caucus, and he expressed the hope that the effects of the bill would not be so disastrous to their interests as the wool growers feared. This is the history of the manner in which the Democratic Congressmen from Texas misrepresented their constituents. The wool growers of Texas are opposed to the removal of the duty and ook occasion to so inform their representatives, but their protest was ignored. The Democratic Congressmen have had their turn, but the wool growers, opportunity will come later on, and then something will drop in this country. Oregon has already shown what the people of the' State think of the Democratic scheme for

free wool and free lumber.

Afraid to Meet the Issue. Senator Colquitt, of Georgia, and Representative Stewart, of the Atlanta District, have betraved in a very curious and striking way their nervousness hast any protection doctrine shall be preached in their State. If there is to be any argument over ate. If there is to be any argument over the property of the p the tariff question in Georgia they propose that it shall be on the free trade side. been organized in Georgia on the plan of that at Chautauqua, N. > > The Difference.

For once the Connerctal is right. We

believe with Mr. Gibson that free trade between the two countries would be a great "blessing in Canada" which would gladly exchange a market of six millions people for one of sixty millions. THE WHIG per-fers to see boot and shoe factories in Bangor, giving employment at remunerative wages to our own citizens, instead of transferring them to Canada, as Mr. Gibson auggests as one of the results of reciprocity and THE WHIG is not afraid to declare its convictions. We wish we could say as much for the Commercial which for a A Good List of Other month now has refused to inform its readers whether or not it favors free lumber, and is equally reticent concerning the action of the Democratic majority in refusing needed protection to the box shook industry. These are matters in which our people, Democrats as well as Republicans. are deeply interested and the fact that the Commercial, after starting in to defend them from the Democratic raid, has suddenly acquiesced in the Democratic programme, although afraid to assume its championship, is the subject of much ad-

Democracy Mesns Free Trade. Mr. Mill's speech in opening the tariff debate, as printed in full in the Congressional Record, justifies the impression produced by the telegraphic reports. It is a manly, vigorous, and most effective free trade speech, abounding with telling points that go to the very heart of protection.—Henry George.

Mr. George is a competent expert. If he says that Mr. Mill's speech was an effective argument for free trade, there can be no doubt about it. He is an enthusiastio free trader bimself and can recognize a good free trade speech when he sees one. This is the Henry George who has as-serted that the Privilent's arguments in the message "if carried to their legical dosclusions would equilibra the whole proOur Representative

We devote considerable space this week, to the speech of Hon. C. A. Boutelle, in Congress, on Monday. July 17th, against reducing the duty on starch, as proposed in the Mills bill. The Republicans of the Fourth District may well feel proud of their Congressional Representative, whose been recognized and appreciated through-out our Nation, and who has taken the front rank among the honored and gifted sons of Maine, whose work, in the legislative halls of our country, is written in bright letters in the history of the United States. True as steel to the best interests of the Republican party and his constituents. Hon. Charles A. Boutelle is deserving of the warmest praise from every true-bearted Republican. The people of Aroostook county are under special obligations to him for his untiring efforts in

An Important Defection. Mr. Charles S. Higgins, a prom nent Democrat and a leading citizen of Brooklyn, has come our squarely against the Democratic ticket, and says that the election of Cleveland would be the greatest calamity that ever happened to the country. He has been a life-long Democrat, and the head of one of the largest soap manufacturing concerns in the world-Chas. S. Higgins & Co. He is a member of the Board of Bridge Trustees, appointed

by a Democratic Administration, a leading man in the Brooklyn Club, and whose contributions to the campaign funds of the Democratic party in the past amounted to

a fortune.

"I shall vote for Harrison and Morton," said Mr. Higgins. "While I have always been a Democrat, i will not support any party that advocabes free trade or has a tendency that way. I am a business, man and my business interests—but princ pally those of the country—need protection, and Harrison and Morton offer that protection, on the protection of the protecti wore for Harrison and Morton and the Republican party, but to do everything in iny power for their election, for on it depends the future welfare of this country."

Mr. Higgins showed a circular which the soap manufacturers are sending out. It says that the passage of the Mills bill will cripple the soap Industries of the country. Mr. Higgins added: "I can count six well known Democratis who have never voted known Democratis who have never voted kny but the Democratic ticket—men who are manufacturers—who will this year vote against Cleveland. I would like to tell you what has been said to me by many proninent Democratic business men, of the stand they will take in the coming election, but it would perhaps look like a breach of confidence. Just make inquiries in the manufacturing

The Disaster Greater than at First Reported.

THE GREAT RAIN.

PTITIBURG, Pa., July 20. A special from Wheeling, at noon, to-day, says the loss of life from the flood last night is at least twenty-flye. About fifteen bodies have been found so far. The money loss is about \$150,000. The greatest loss of life was along Wheeling Creek and at Triadelphis. Search this morning resulted in the discovery of a member of bodies at that place. Most of them were found among the drift which commenced at Elm Grove.

Burther Reports of Disaster WHERLING, W. Va., July 20. Later tails from Triadelphia show that the atruction there was more apalling that any where else. Fifteen families are some less. Where the Triadelphia school house stood the creek is now a raging flood and not a vestige, even of the foundation re-mains. The whole south half of the town

has disappeared
The Baltimore and Ohio Railroad, Pittsburg division, is practically destroyed for fifteen niles. The Western Union Teleifficen miles The Western Union Telegraph Company lost forty miles of wire and most of its poles. Reports are coming in from all parts of Obio county, indicating that the storm was more disastrous to hie and property in the country than in the city. It cannot be stated how many lives are lost. The loss in this city is known to be ten with a number reported as missing. Caldwell's run which passes through the Eighth Ward, was the Scome of the Greatest Haupe.

Three houses were swept, away and all the inmates drowned, Mrs. Bagber and son, Herman Stenzel, Alac and Annie Wingert, of Millionsburg. Ohio, nicres of John Homan Mrs. Thomas Hawley and four children ind her husband were in the yard and swept a bundred yards down the stream and managed to reach the tank Only two bodies were recovered. There is great damage at Eim Grove and Triadelphia, the drowned at these points being Mrs. Jane Fay and two daughters. William Gaston and wife, Mr Caulbell and two young men named Bowman Mrs. Johnson, a widow, aged sixty, residing in Clinton, in this county, died from fright Clinton, in this county, died from fright A later despatch says, twenty-three per ons are known to be drowned.
